

With >20,000 hours of maintenance free operation, the UVC BODYLIGHT™ will have sanitized over 8,369,000 square feet of surface area from 4" away!

**8910 UVC BODYLIGHT™**

Only ~15¢ per hour to operate!

**KILLS COVID-19 IN  
JUST OVER 1 SECOND!**

**VS**

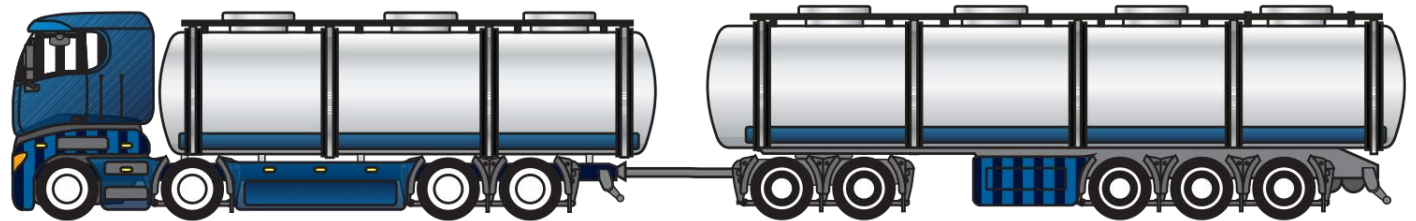

**GRACO® SANISPRAY HP20**  
Costs >\$10.84 per hour to operate!

([service-partners.com/sanitize-disinfect/](http://service-partners.com/sanitize-disinfect/))

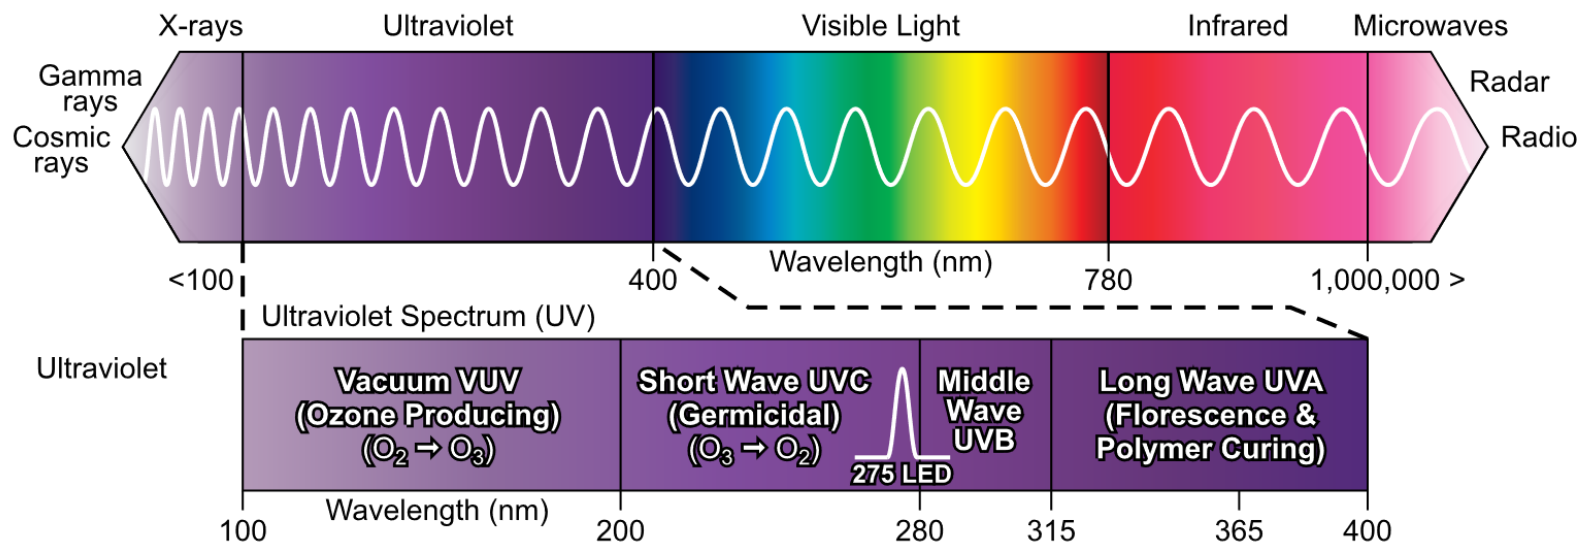

**Requires 10 minutes to Kill COVID-19**  
CONCROBIUM® BROAD SPECTRUM DISINFECTANT II  
Minimum surface wet-time of 10 minutes, per CDC cleaning guidelines.

**No Flammable Chemicals  
No Toxic Residuals  
No Long Wait Time**

Over \$216,000 spent on sanitizing liquid alone to disinfect 8,369,000 square feet!  
Requiring over 8,369 gallons of disinfectant!

**ELECTROMAGNETIC SPECTRUM**

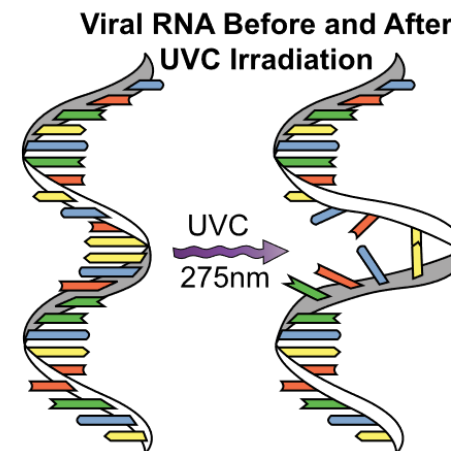

UVC light reacts with DNA/RNA killing COVID-19 and other microorganisms.

UVC breaks apart nucleic acid and forms dimers of C-C, T-T, and U-U, distorting the DNA/RNA molecule.

Requires 1.2-1.9 mJ/cm2 irradiance of UVC light to deactivate COVID-19

Dimers formed create a "bulge" in the RNA that stops its replication.
